KARYA · A CWI STUDIO PRODUCT

Every piece of work. One place it gets *done.*

Boards and timelines that business and tech share — with sign-off where it matters, an AI agent on the team, and an app for your phone.

- Boards, lists & timelines
- Business sign-off
- AI agent pickup
- Karya Go on your phone

कार्य

KĀRYA · WORK

Work hides in five places. Now *one*.

A chat message, a sheet row, an email, a call, a standup — each holds a piece. None holds the whole job.

Team chat
"UPI failing again, pls check"
NO OWNER

Spreadsheet
Row 214 · status: "WIP?"

bug · payments

UPI payment fails at checkout on Android

Reported by support from three customer chats. Fails after the bank app returns; card payments are fine.

STATE	PRIORITY	ASSIGNEE
In Progress	High	Kabir

DUE DATE	MODULE	ATTACHMENTS
Fri, 13 Nov	Checkout	3 screenshots

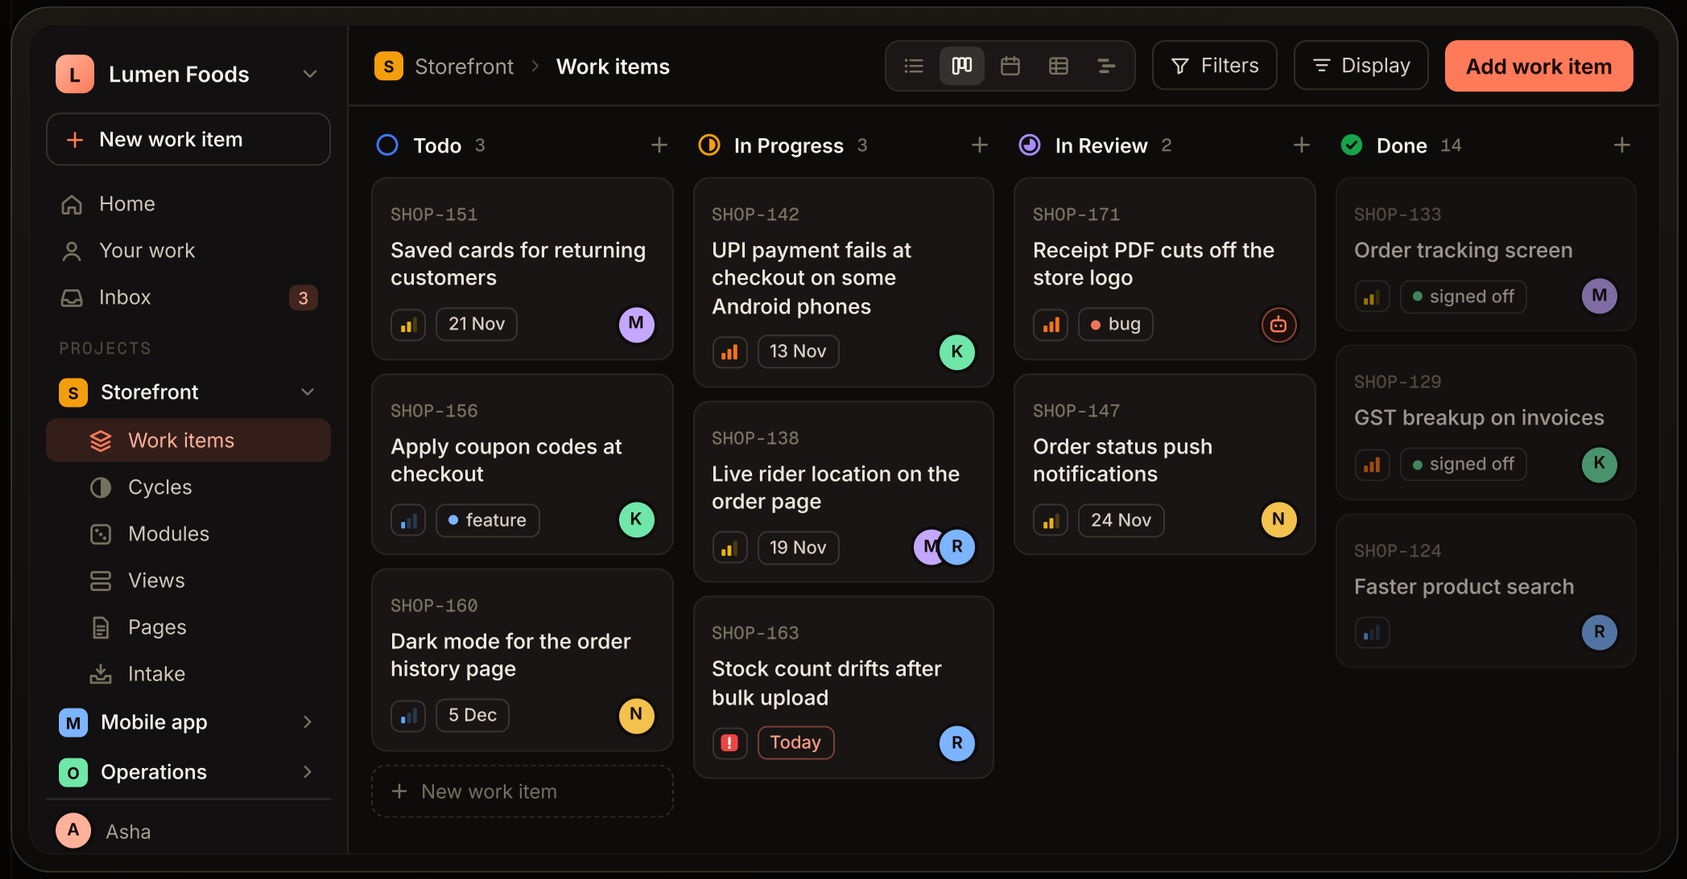

- **Asha** created it from Karya Go, with 3 screenshots — Mon 09:12
- **Ravi** assigned **Kabir** and set the due date — Mon 09:40
- **Kabir** moved it from Todo to **In Progress** — Tue 11:05
- **Kabir** commented: "Reproduced on two phones, fix in progress." — Tue 16:30

One work item: the owner, the state, the deadline and the whole history.

Illustrative interface · data is an example

All the work, on one *board.*

Projects, work items, modules and cycles — as a list, board, calendar, table or timeline, switched in a click.

Five layouts, one click

List, board, calendar, table and timeline — over the same work items.

Everything on the item

State, priority, people, labels, dates, attachments and the full activity.

Specs live beside the work

Pages for plans and notes; Intake for requests that still need triage.

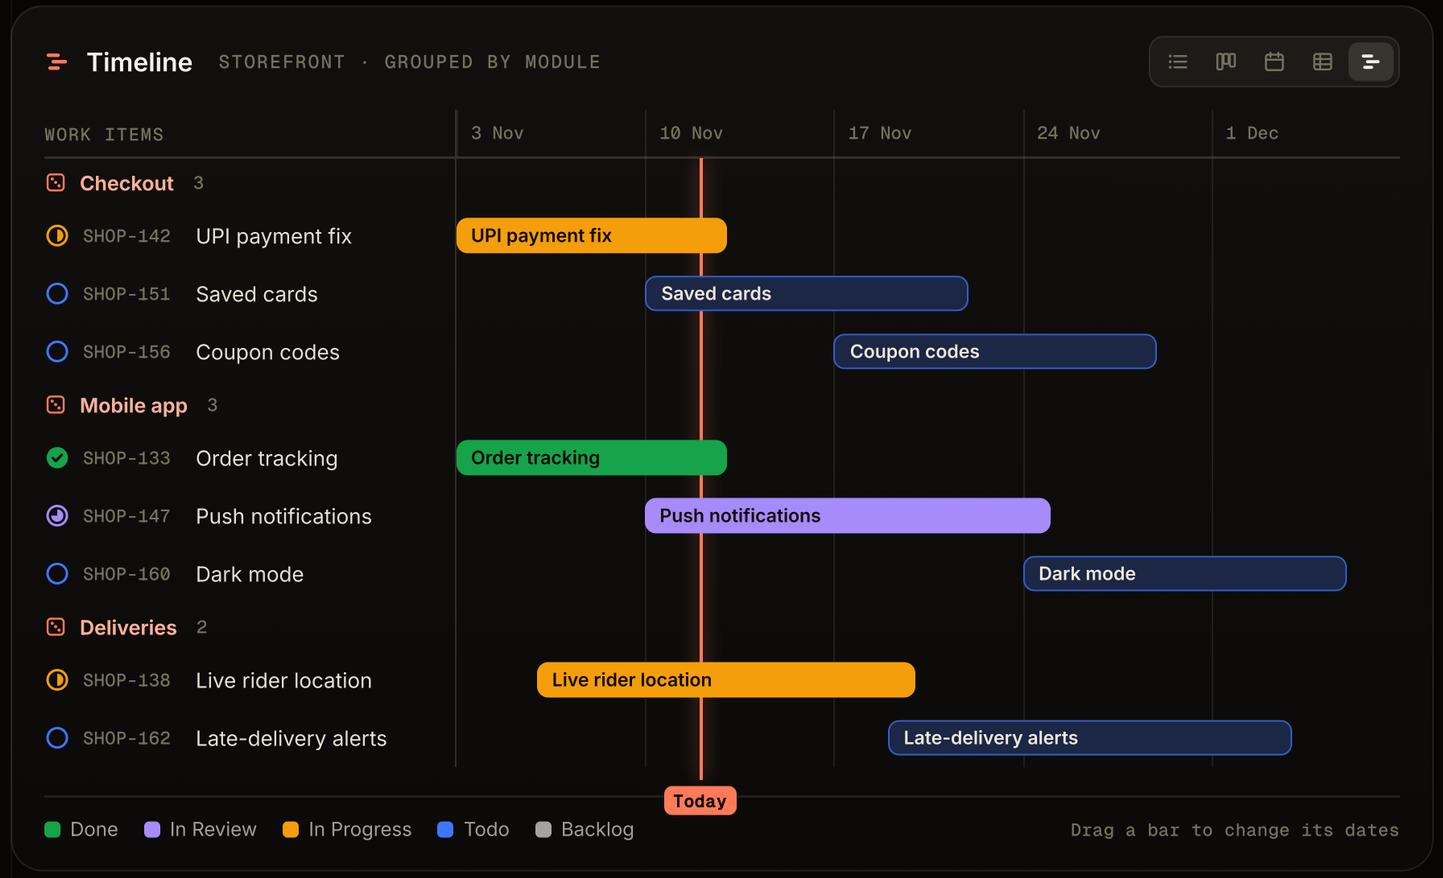

An inbox for what needs you

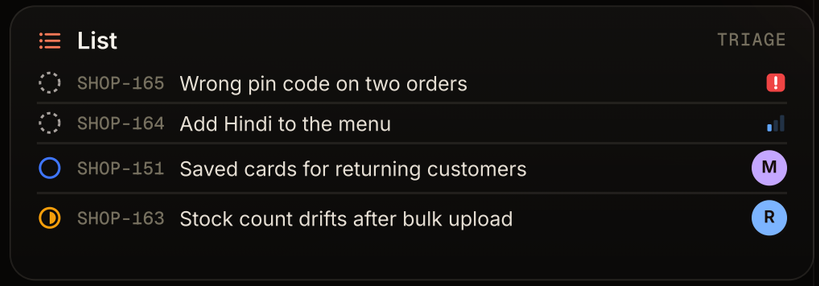

Assignments, mentions and changes on the work you follow.

Illustrative interface · data is an example

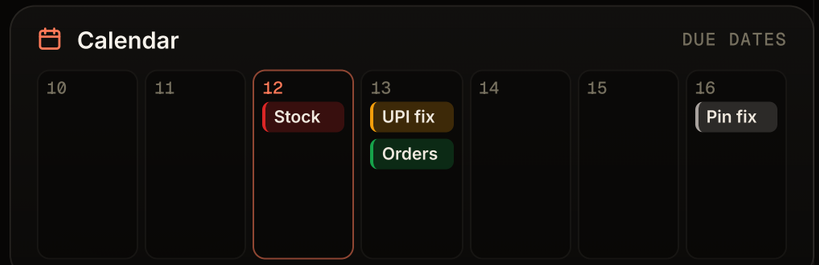

Same work. The view *you* need.

Engineers live on the board; business reads the timeline. Filter, group and save a view for each team.

Illustrative interface · data is an example

Organised the way business *thinks.*

Modules for the parts of your product people know by name. Cycles for the next two weeks of work.

Illustrative interface · data is an example

Tech ships it. Business *signs it off.*

Choose who may move work into Done, and who may delete it. Everyone else still creates and works freely.

Rules apply to everyone, admins and AI agents alike · Illustrative interface

FOR TECH TEAMS

Assign work to an AI *teammate.*

Add an agent to a project like any member. Assign it an item: it reads it, reports back and moves the state.

Storefront · SHOP-171 — bug

Receipt PDF cuts off the store logo

Wide logos are clipped on the printed receipt. Seen on three stores since the new template.

ACTIVITY

- **Ravi** assigned **CWI Agent** — 10:02
- **CWI Agent** moved it to In Progress — 10:03
- **CWI Agent** BOT commented · 10:41
  > Reproduced: the receipt template clips logos wider than 600 px. Steps and a screenshot attached. @Ravi please review.
- **CWI Agent** moved it to In Review — 10:41
- **Ravi** checked the steps and mentioned **Asha** to sign off — 11:15

Done waits for **Asha** or **Ravi** to sign off — the agent can't close it.

LINKS

Receipt template spec — Page

01 · ADD

It joins like a member

Its own login, and only the projects you add it to.

CWI Agent MEMBER Storefront only

02 · ASSIGN

Assign it, and it picks up

It reads the item, comments with what it found and moves the state.

Todo → In Progress → In Review

03 · SIGN OFF

Your rules still apply

It can't move work into Done unless you name it an approver.

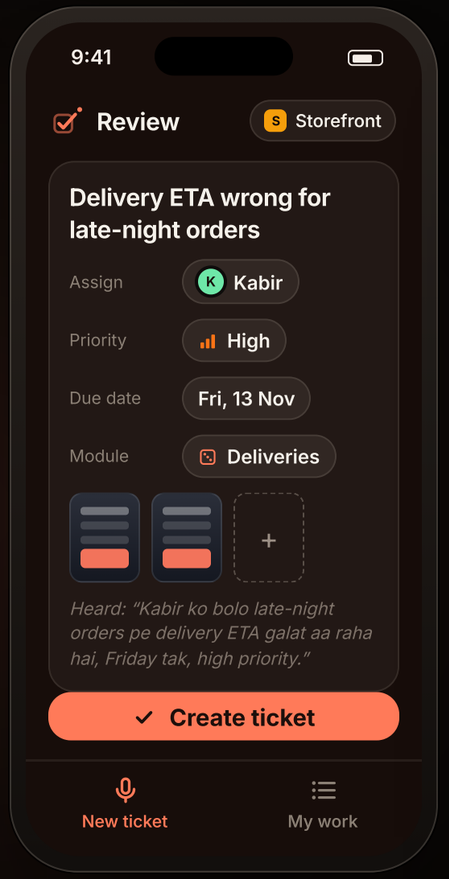

Done — Asha, Ravi

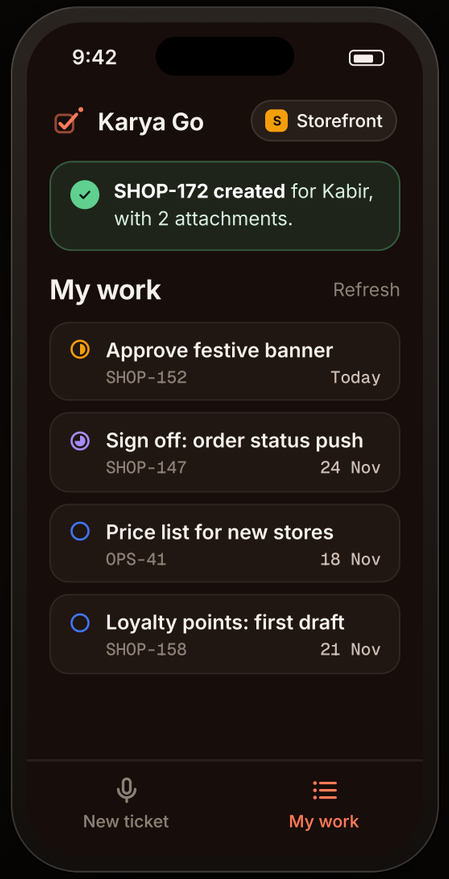

Illustrative interface · data is an example

Speak a ticket. Karya *writes it.*

Say it in Hindi, English or Hinglish. Review the draft, add a screenshot, create — all from your phone.

Speak the way you talk

Hindi, English or Hinglish in; a clear ticket in English out.

One sentence fills the fields

Title, description, assignee, priority, due date and module.

Screenshots come along

Gallery, camera or paste — or share a screenshot straight in on Android.

Nothing is created unseen

Every draft is shown first. Installs on the home screen, stays signed in.

Illustrative interface · data is an example

Your own workspace, *run for you.*

We set up your workspace, invite your team and keep it running — backed up every hour, updated, supported.

RUN BY US

Hosted, backed up, cared for

You do the work. We keep Karya running under it.

Off-site backups, every hour
Encrypted, with restores tested.

Updates rolled out by us
New Karya releases and fixes, no work on your side.

A person, not a checkout
Plan changes and upgrades go straight to our team.

Open source at the core
Karya's source is public, under AGPL-3.0.

Illustrative interface · data is an example

Start with one *workspace.*

Bring one project and your team. We set up the workspace and bring in what you track today.

YOU BRING

- One project to start with
- Your team's email addresses
- The sheet or tracker you use today
- Who signs off, and who deletes

TOGETHER

One place for the work
Sign-off where it matters
Agents and phones on it

CWI STUDIO BRINGS

- Your hosted Karya workspace
- Your existing sheet, imported
- Modules, states and approvals set up
- Karya Go, backups and support

TO BEGIN

One project, your team invited, your sheet brought across.

SET UP WITH YOU

Modules · States & approvals · Views for each team · Karya Go on phones · AI agent
